

Employee Update 07-09-2020

To all Mayville State faculty and staff,

As we navigate the ever-changing world of COVID-19, the only certainty is that there will be continued modifications to plans. We are doing our best to keep people informed of the latest. In light of yesterday's positive case, I have had a few people asking for more detail. Unfortunately, confidentiality does not allow us to share detailed information. Attached you'll see a copy of the steps we will follow when positive cases are identified on campus. You will also find this document with the coronavirus-related information on our website at [www.mayvillestate.edu/COVIDrestart](http://www.mayvillestate.edu/COVIDrestart). I encourage you to keep this document handy as a reference. Hopefully it will help to reduce the "Should I be worried?" factor. You will be contacted if the public health department determines that you're at risk.

Sincerely,

Brian Van Horn, President  
Mayville State University
