Who We Are

Mayville State University Child Development Programs has been providing comprehensive programming to Head Start and Child Care families since 1991 and to Early Head Start families since 2002 with an expansion in the city limits of Grand Forks, ND in 2010. The program provides collaborative pre-k within three school districts, childcare for children ages birth to 13, and is Mayville State University’s hands-on lab site used for educating future early childhood educators and teachers. It is through such partnership and diverse programming that children, families, and community member receive high quality comprehensive services.

Mission

Mayville State University Child Development Programs will assist in empowering children, families, the community, staff, students, and volunteers by providing opportunities and resources to improve their quality of life.

Goals

For Our Children
• To provide the opportunities for comprehensive development (physical, social, cognitive, emotional and language) through developmentally appropriate practice.

For Our Families
• To value and support “parents as their children’s first and primary teachers.”
• To foster independence, self-sufficiency and individual empowerment by linking families with temporary and appropriate supportive services.

For Our Communities
• To promote partnership with community resources by linking children, families, staff and students with appropriate agencies according to their individual needs.

For Our Staff
• To encourage and mentor each other in professional and personal growth.

For Our Students
• To provide opportunities for leadership, learning and direct experiences in a developmentally appropriate environment.

For Our Volunteers
• To provide opportunities and support for individuals to share their time and talent.
Program Options Available

**Center-based Head Start (HS)** is a 9 month (August-May) federally funded program, which provides a comprehensive children development program for children age’s three to five. Head Start Center-Based services is offered at no charge to income and age eligible families from 8:30am to 3:00pm, with wrap around child care offered at an hourly fee which is the responsibility of the family.

**Center-based Early Head Start (EHS)** is a year-around federally funded program, which provides a comprehensive children development program for children ages birth to three and pregnant women. EHS Center-based services is offered at no charge to income and age eligible families from 8:30am to 3:00pm, with wrap around child care offered at an hourly fee which is the responsibility of the family.

The **Home-based** program serves Head Start and Early Head Start families within our services area. Families receive week home-visits and bi-monthly socialization opportunities. Home-based provides the same services and activities as the center-based services within the enrolled family’s home.

**Prenatal Early Head Start** services provides expectant mothers and family’s support on issues related to pregnancy, with a minimum of monthly home visits and bi-monthly socializations opportunities.

The **Child Care** program offers an integrated classroom approach where children enrolled in this program receive daily care and education for their children. Child care is a monthly fee based program.

All children and their families enrolled at the MSU CDP are involved with all HS and EHS components including health, nutrition, family services, parent involvement, and child development with an integrated approach. All staff of the MSU CDP will support and assist all families with any goals they choose to strive for.

**Service Area**

**Early Head Start**

**Counties:**
Grand Forks, Steele, Traill, Nelson

**Sites:**
Grand Forks (UND Campus-EHS center & UCC), Mayville (MSU Campus), Hillsboro (Armory)

**Head Start**

**Counties:**
Nelson, Griggs, Steele, Traill

**Sites:**
Mayville (MSU Campus), Hillsboro (Armory), Hillsboro Elementary School, Central Valley Public School, and McVille (Dakota Prairie School)
Eligibility Requirements

Families must meet federal administration for children and families age and income guidelines to be eligible for Head Start and Early Head Start. Ninety percent of children must be from income-eligible families. Ten percent over-income families may be accepted according to selection criteria outlined in the programs selection criteria. Children receiving Supplemental Social Security Insurance (SSI), who are in foster care, on Temporary Assistance for Needy Families (TANF), or are homeless are automatically eligible. The program must serve ten percent of it’s population to children with a diagnosed disability.

Early Head Start serves pregnant women and children from birth to age three. Head Start serves children age three to five and who are not kindergarten eligible.

Select communities within Traill, Steele, Griggs and Nelson counties have been declared as “Medically Underserved.” This is a federal designation that allows the program to serve a higher number of over-income families from these designated communities. Other factors such as preschool program access and population are also factored into the communities eligibility for this designation.

Child Development Programs is operated on a nondiscriminatory basis. Equal treatment and access to service is given without regard to race, color, creed, religion, disability, gender, national origin or ancestry. The program encourages families that have children with disabilities to apply.

2012-2013 Enrollment

*Actual Enrollment includes turnover
**Early Head Start includes children and pregnant women
Program Services

Education Screenings
- Brigance developmental screenings is completed within the first 45 days of enrollment
- If any concerns appear through this screening, referrals are provided

Family Partnership Agreement
- Each family completes a family needs assessment & partnership agreement with program staff. This helps identify family strengths & areas for growth
- Staff help families by providing referral and support information for services

Individual Child Development Plan
- After educational, social/emotional, and health screenings are completed, individualized learning outcomes and goals are developed and discussed with parents
- Ongoing child assessment is used to monitor the growth and development of the children

Special Services
- Health & disability services staff make referrals and assist parents in finding special services for children and families when necessary

Health Screenings
- Physicals are completed within the first 90 days of enrollment
- Dental exam/screening are completed within the first 90 days of enrollment
- Hearing & vision screenings are completed within 45 days of enrollment
- Heights & weights are done twice a year to monitor physical growth and BMI’s
- All children must provide proof of immunizations
- Staff provides information to parents that supports the identification of ongoing medical and dental homes

*Children are screened within 45 days of enrollment, children enrolled for less than 45 days may not have received developmental and growth screenings. Children on IEP or IFSP’s receive screening through Part B or Part C.*
School Readiness

Children are screened using the Brigance Screen and Ages and Stages Social Emotional. Teaching Strategies GOLD is used to monitor the progress each child makes (child outcomes) in their learning. The program uses Creative Curriculum, a scientific research-based curriculum in the classroom and Parents as Teachers and Creative Curriculum for families enrolled in the home-based option.

Children are monitored throughout the program year. Child outcomes data is reviewed three times during the school year and once during the summer. Information is shared with parents so that together we can achieve individual goals. Parent engagement with individual child outcomes is critical to child growth and development.

For children ages 0 - 3 we look at:

- **Social and Emotional Development** - trust, security, self awareness and relationship development
- **Language and Communication** - listening and understanding, communicating and speaking and emergent literacy
- **Cognitive Development** - exploration and discovery, memory, problem solving and imitation and symbolic play
- **Physical and Motor Development** - gross and fine motor development, physical healthy and well-being

All of these areas are developed through providing a supportive, safe and trusting environment where children can learn through their play.
School Readiness

For children ages 3-5 we look at 11 domains of learning:

1. Physical Development & Health - self-help skills, fine and gross motor development
2. Social & Emotional Development - social relationships, self-regulation, emotional and behavioral health
3. Approaches to Learning - initiative and curiosity, persistence and attentiveness, cooperation
4. Logic & Reasoning - reasoning and problem solving, presentation
5. Language Development - receptive and expressive language
6. Literacy Development & Skills - book appreciation, phonological awareness, alphabet knowledge, early writing
7. Mathematics Knowledge & Skills - number concepts and quantities, number relationships and operations, geometry and spatial sense, patterns, measurement and comparison
8. Science Knowledge & Skills - scientific skills and method, conceptual knowledge of the natural and physical world
9. Creative Arts Expression - music, creative movement and dance, art, drama
10. Social Studies Knowledge & Skills - self, family, and community, people and their environment, history and events
11. English Language Development - engagement in English literacy activities

All of these areas are developed through providing a supportive, safe and trusting environment where children can learn through their play. Activities are both child initiated and teacher directed. Program wide child outcome data is available upon request at the MSU CDP main office.
## School Readiness Goals & Results

GOLD: Goals and Learning Development System
Mayville State University Child Development Programs believes high quality services to children and families begin with highly qualified staff.

The MSU teachers because of their degrees understand the connections between the developmental stages of children birth through age 8, the educational domains, and developmentally appropriate practices. They are able to demonstrate the understanding and implementation of developmentally appropriate practice through their planning, individualization, and learning outcomes. An Indicator of a high quality program is one that has degreed staff. 100% of pre-school (ages 3-5) teachers have an Early Childhood Degree. 100% of birth to age 3 teachers have an Early Childhood Degree.

All program staff receive ongoing professional development opportunities in developmentally appropriate practice, curriculum, child screening and assessment, health and safety, and other early childhood curricular areas.
The program works with parents to ensure they are and remain healthy throughout the program year.

Comprehensive health services provided to all Head Start and Early Head Start children include:

- Fall and Spring Heights and Weights for BMI’s
- Hearing and Vision Screenings
- Socio-Emotional Screenings with Ages and Stages

Continuous and preventative health care supported by medical and dental homes:

- Immunizations - 85% of children are up to date with their immunizations
- Physical Exams and Well Baby Checks - 73% of families are up to date with all well child check ups
- Prenatal Care - 100% of new moms received prenatal health care
- Dental Exams - 80% of children received dental exams

Children who were enrolled for less than 90 days may not have completed some screenings and/or exams. Parents have the right to refuse screenings and exams.
Health Statistics At A Glance

Early Head Start

Of the 160 Early Head Start children served:
- 102 were on CHIP/Medicaid
- 144 had a medical home
- 115 had a dental home

Head Start

Of the 87 Early Head Start children served:
- 37 were on CHIP/Medicaid
- 85 had a medical home
- 76 had a dental home
MSU CDP takes its fiduciary responsibility to be good stewards of your investment seriously. The program complies with accounting principles found in the Head Start Act, the Office of Management and Budget (OMB Circulars), the Code of Federal Regulations (CFR), and the HS Performance Standards.

For every federal dollar awarded, the Head Start/Early Head Start Program is required to match $0.25/dollar by receiving donated goods and/or services. The non-federal share goal for 2012-2013 was $480,842.

We received $489,190.75 in non-federal share for the year. Over $238,000 came from volunteers.

Parents are encouraged to participate in the program in many ways including volunteering in the classroom, attending parent meetings and trainings, attending parent/child activity days, attending Policy Council meetings, and through special events.

The program is grateful for all of the volunteer support.

In 2012-2013, over 600 people volunteered for Head Start and Early Head Start. Many were former or current Head Start/Early Head Start parents. Other volunteers included college and high school students, foster grandparents, and community members and groups.

The program is required to have volunteer support to meet financial goals.
The most recent federal monitoring occurring during the week of October 3, 2010. The program was determined to be in full compliance with all Head Start Program Performance Standards, laws, regulations and policy requirement, with no required corrective action. Many strengths were noted in the formal report which include staff and parent communication, family and community partnerships, and the distinction as a Program of Excellence across the State of North Dakota. The results of this review are available for review at the MSU CDP main office. The program will be reviewed again sometime in fall of 2013.

The program will have a USDA food services monitoring during the 2013-2014 school year.

The sites of Mayville, Hillsboro Armory, Cooperstown and Grand Forks are annually licensed through the county.

All locations have health inspections and fire inspections annually to ensure health and safety.
This annual report covers the program year beginning August 2012 – July 2013.

For more information regarding the program please contact Allison Johnson, director at allison.johnson.3@mayvillestate.edu or at 701-788-4868.

Visit our website at www.mayvillestate.edu/cdp or check out our Facebook page “Mayville State University Child Development Programs”

The program welcomes community and parent feedback.
