VOLLEYBALL

Mayville State Volleyball

Everybody Wants to Win.

Not everybody is willing to sacrifice everything necessary to be a part of a championship team. At Mayville State we will work harder than anybody in the country. We know that the only two things you can really control in life are your attitude and your effort.

Winning Championships Is Not Easy.

It takes an incredible amount of hard work and sacrifice for the greater good of the team. We will start coming together as a team from the first day you arrive on campus. We talk about being there for each other, looking out for one another, and realizing that your attitude and your effort have a direct impact on the success or failure of our team.

Relationships

The memories you gain by being a part of the Mayville State University volleyball team will last a lifetime. This all starts with being around great people and great teammates. No matter what you're doing in life, you have a much better chance of success if you surround yourself with great people. That is one of the cornerstones of our volleyball program. Winning games is a lot of fun, and winning championships will give you a badge of accomplishment you can wear for the rest of your life, but the relationships you form with your teammates are what you will remember the rest of your life. The relationships our girls have made with each other will last forever. At MSU, it's about more than just winning.

Successful

We are successful because we work a little harder than anybody else. We want hard work to be a major staple of our team. We have always set the bar high for our volleyball team at Mayville State University. Our goal at MSU is to win a national championship, and we will continue to work relentlessly to reach that goal.
