

Update for all Mayville State Faculty, Staff, Students

Sept. 22, 2020

Late this afternoon, a student who takes classes on campus and lives off campus received a positive COVID-19 test result. The individual self-identified and chose not to be on campus today. Per our COVID-19 guidelines, public health officials are conducting contact tracing for this case. Any individuals who may be at risk will be contacted by public health. Proactively, we are in the process of asking individuals who may have been in contact with the individual to quarantine at least until the contact tracing process is completed. I encourage everyone to be diligent in wearing masks, screening for symptoms, and practicing general good health habits such as washing hands and disinfecting surfaces.

Sincerely,

Dr. Brian Van Horn, President

Mayville State University
