## Evaluation and Grading

### Grading Policies

The goal of evaluation is to assess whether students gained the knowledge, skills, and dispositions that will increase their competence as educators in a diverse and inclusive classroom.

It is the student's responsibility to monitor graded assignments. Checking the grade section of Blackboard is the best way to make sure that assignments have been submitted. Attendance/Participation Policies

**Late Work:** You are better off handing in something late than not handing it in at all.

- Late work **drops 1 point per day after the due date**. Late work is determined by the Blackboard Dropbox date. The dates assignments are submitted are highlighted on the dropbox, and this is the method used to determine if an assignment is late. Timeliness is a teacher disposition.
- Please **do not** email your work. Instead, dropbox it within Blackboard. If you have difficulty submitting it, please let me know by email or phone.
- Please plan ahead and do not wait until the last minute to hand in assignments. Each assignment is given enough time for completion, and it is up to you to take advantage of this allotted time.
- The entire course is open from day one, allowing you to plan your time accordingly.
- **Extra Credit:** Extra credit **is not given**. Please do not ask for extra credit. The assignments within this course are designed to help you understand your knowledge of the topics and strategies discussed.

**Rounding Up:** The grading scale listed within the syllabus is used to assign the final letter grade for the class. If you are within .5 of the next grade, and it moves you up a letter grade, that will be implemented. However, before implementation, your timeliness, completion of assignments, and teacher dispositions will be reviewed and used in the decision-making of this process.
